

The Calvarymen Quartet

What all is involved in bringing in the Calvarymen for a concert?

The most important thing for the Calvarymen is to be each night where God wants them to be. They are a totally ministry focused group, but they do have expenses and needs like any other group. It takes a lot of support to cover the equipment, bus, travel and administrative cost to keep the Calvarymen going each week.

Needs

When the Calvarymen show up at a function they really are pretty self sufficient. They bring their own sound system, are very attentive to church request and will fit the program to a church's needs. One thing that does help with cost is if some sort of meal can be provided (the guys aren't picky). Beyond that, all they ask from someone that brings them in is that they do their best to advertise and get as many people there as possible.

The Financial End

Being based in Flint, MI. the Calvarymen need to come up with various amounts of money depending on where they are going. For a Michigan area concert the cost to cover their expenses is lower than if they venture outside the area. For some organizations and churches the expenses may seem like lot of money, but for others it may not be. What we have found is that some churches give more than what we need to allow the ministry to expand, but others may struggle with not knowing if they can afford to bring in the Calvarymen. What if you can't come up with the amount needed to bring in the Calvarymen? We want to do whatever we can to work something out. Many churches and supporters give above and beyond to a low us to go places that may not meet our financial needs, but to still go because that is where God wants us. If you give us a call, many times we can work something out depending on where we are traveling. Many would be surprised at what God can do through a few hundred dollars and a freewill offering. We believe if we are faithful to God, he will be faithful to us. So if you think the Calvarymen would be a good fit for your event or service, give us a call and let's see what we can come up with. After that we will just let God work through the ministry of the Calvarymen.
